About Hilcorp Energy Company - Harvest Pipeline Company

Hilcorp Energy Company founded in 1989 is the fourth largest privately held oil and natural gas producer.

Harvest Pipeline Company is an affiliate of Hilcorp that owns and operates midstream assets.

References to "Hilcorp" are intended to cover Hilcorp Energy Company, Harvest Pipeline Company, and/or their respective affiliates.

It is Hilcorp's commitment to never compromise or relax our values in the pursuit of profit or gain. We stress doing the right thing; we treat people fairly; and we play by the rules – all the rules, with honesty and integrity.

What does Hilcorp Energy Company - Harvest Pipeline Company do if a leak occurs?

Hilcorp is engaged in constant activity to maintain safe pipeline operations. In the event of a pipeline release the Hilcorp Emergency Response Team will take the following steps:

1. Assess the situation.
2. Respond to protect people, property, and the environment.
3. Call for assistance of trained personnel.
4. Work together.

Maintaining safety and integrity of pipelines

Hilcorp Energy Company - Harvest Pipeline Company invests significant time and capital maintaining the quality and integrity of their pipeline systems. Most pipelines are monitored 24 hours a day via manned control centers. Hilcorp Energy Company - Harvest Pipeline Company also utilizes aerial surveillance and/or on-ground observers to identify potential dangers. Control center personnel continually monitor the pipeline system and assess changes in pressure and flow. They notify field personnel if there is a possibility of a leak. Automatic shut-off valves are sometimes utilized to isolate a leak.

Gas transmission and hazardous liquid pipeline operators have developed supplemental hazard and assessment programs known as Integrity Management Programs (IMPs). Specific information about Hilcorp Energy Company - Harvest Pipeline Company's program may be found by contacting us directly.

How to get additional information

PRODUCTS TRANSPORTED

PRODUCTS TRANSPORTED IN YOUR AREA

PRODUCT	LEAK TYPE	VAPORS
HAZARDOUS LIQUIDS [SUCH AS: CRUDE OIL, DIESEL FUEL, JET FUEL, GASOLINE, AND OTHER REFINED PRODUCTS]	Liquid	Initially heavier than air and spread along ground and collect in low or confined areas. Vapors may travel to source of ignition and flash back. Explosion hazards indoors, outdoors or in sewers.
HEALTH HAZARDS		Inhalation or contact with material may irritate or burn skin and eyes. Fire may produce irritating, corrosive and/or toxic gases. Vapors may cause dizziness or suffocation. Runoff from fire control or dilution water may cause pollution.
NATURAL GAS	Gas	Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.
HEALTH HAZARDS		Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.
